Feature Update Release

Update in Notification Count from 20 to 50

Earlier in the notification bar, the student and teacher could only see **20 notifications**. Hence, if there were more than 20 notifications within a short period of time, all notifications could not be shown and were likely to be missed. However, with the recent update, now both students and teachers can see up to **50 notifications**.

My Time-table Feature in Student Account

Previously, the students had no time-table option in the top menu bar. As a result, the student had difficulty with viewing the upcoming sessions. However with the new release, now the students can see the upcoming session more conveniently from the top menu bar itself. This allows students to plan easily as they can see all the upcoming sessions in a week or month time frame.

The screenshot displays the 'My Time-Table' feature in a student account. The top navigation bar includes 'Home', 'Classrooms', 'Subjects', 'Testpapers', 'Chat Rooms', and 'My Time-Table' (highlighted with a red box). A search icon, a notification bell with '40', and a user profile icon are also present. The user has '510028 Tutor Credits'.

The main content area shows a calendar for August 2023. A 'View as: Week Month' toggle (highlighted with a red box) is located at the top right of the calendar. The calendar is organized by days of the week (SUNDAY to FRIDAY) and weeks (Week 34, Week 35, Week 36). Sessions are color-coded: blue for individual student sessions, orange for tests, and green for NOISSES SESSIONS. Some sessions are marked as 'Repeated Session is created'.

My Platform Activities

My Platform Activities shows the activities of students in Simplified and Detailed View. For example: if the student creates a test paper or buys a subject, then these activities will be recorded and can be seen using this feature.

The student can also use filters to see the activities from a specific period of time. They can also see activities for particular features like ebook, assignments etc.
